

# FLAME-RESISTANT QUILTED HARD HAT LINERS

Stay protected and comfortable on the job with our FR-Tech® hard hat liners.

Made with a durable cotton/nylon blend and insulated with a modacrylic-viscose barrier, they provide thermal protection while repelling moisture. A soft FR cotton lining ensures all-day comfort. Choose models with built-in or detachable mouthpieces for added adaptability in cold or changing environments.

**FR-Tech® Fabric: 88% Premium Cotton / 12% High-Tenacity Nylon**

Combines the comfort and breathability of cotton with the durability of nylon for long-term performance.

**100% FR Cotton Lining**

Soft against the skin and inherently flame-resistant—ideal for prolonged face and neck coverage.

**ATPV 40 Cal/cm² | ARC 4 Rating**

Ideal for Category 4 hazard environments such as electrical substations, switchgear rooms, and high-voltage maintenance work.

**Sewn with Inherently FR Thread**

Flame resistance is built into every seam, enhancing garment integrity during thermal events.

**Breathe Easy**

Models with mouthpieces protect against wind, cold, and debris while adapting to jobsite conditions. Detachable options improve breathability and flexibility, reducing heat and moisture buildup.
